From
The Andersons

Our Family at Work 2011

As the Anderson children get through college, they move into jobs with desks—our theme for this year.

TAMARA and **JAGA** have been busy in New York, both working with Lovin' Life Ministries (lovinlifeministries.org), a nationally televised service with lots of energizing music and outreach programs. They share an office on 43rd Street on Manhattan. This last year they moved from Queens to New Jersey, sharing a large house with Jaga's brother Jatoma and his family. They have also travelled to other cities—Washington, D.C., Los Angeles, Las Vegas, Chicago, and Bridgeport—for live broadcasts from satellite locations.

JAYNA is settled in at U.S. Compliance (www.uscompliance.com) in Minnetonka. They work with other companies to promote safety in the workplace. She does marketing and event planning and is the hub in the office. She moved into her friend Dawn's house on Smith Avenue in West St. Paul. The house was built in the 1920s and has lots of nice built-in oak cabinetry. She went with Dawn to Kentucky for an EKU homecoming and horse races and to the Boundary Waters of Minnesota for her cousin's wedding.

GRETA graduated Magna Cum Laude in Graphic Design at the University of Bridgeport in May. She went out to Portland, Oregon selling books for SW Books (www.southwestern.com) in the summer, then spent the Fall on the West Coast with several friends. They began in San Diego and worked their way up to Seattle before Thanksgiving. She was able to meet up with her cousin Maria, who is studying for an M.Div. in Berkeley, CA. She is now working on a new church magazine called *UC Lifestyle* in an office on 8th Avenue in New York City. The magazine will make its debut in January 2012.

EVAN is in his third year of the Industrial Design program at the University of Bridgeport. Over the summer he worked with Jim Kirvida at Custom Fire's fire truck assembly plant. His Fall design project was to make a Proctor and Gamble product more "green." He chose the Swiffer® and designed a refill roll and dispenser for it. He came home for Christmas and has been working a few days at our local Target store.

MARY JANE has a new nurse's office at Elderhaven, an assisted living home in Forest Lake. She also works at the Transitional Care Unit at the WBL Care Center. She is going on 30 years in AVON sales. She is Treasurer of the White Bear Lake Women's club and was appointed to the White Bear Lake Charter Commission. She also sings in our church choir, and does many other activities filling her time with an empty nest.

GORDON is still President of Paragon House books (www.paragonhouse.com), and publisher of *International Journal on World Peace* (www.ijwp.org). He resigned as President of the Minnesota Legislative Evaluation Assembly but remains active in the organization. He taught an online doctoral course titled "Integral Society and Politics" at the California Institute of Integral Studies. He maintains a blog named after his last book, *Life, Liberty, and the Pursuit of Happiness, Version 4.0*, at <http://blog.ganderson.us>.

Best Wishes for 2012 • *The Andersons*
